Management Engineering student at the University of Waterloo with GTM, Sales and Product experience across NVIDIA, Groq, Untether AI, Ansys and Air Canada.

## Experience

### Air Canada
Sep 2026 – Dec 2026

**Marketing Operations** *Toronto, ON*

- Stepped outside the AI industry to pursue a childhood dream of working in aviation.
- Built internal AI agents to automate and simplify marketing workflows across Brand, Creative, and Technology teams.

### NVIDIA
Jan 2026 – Apr 2026

**GTM Data Analyst Intern** *Toronto, ON*

- Analyzed revenue and pipeline data in Databricks and Tableau to surface trends that informed strategic sales decisions.
- Automated prospecting, lead qualification, and account research with AI-powered Clay workflows.
- Tracked campaign and engagement metrics in Adobe Analytics and Salesforce to improve revenue visibility.

### Groq *(acq. by NVIDIA)*
May 2025 – Jan 2026

**GTM & Deal Desk Associate** *Toronto, ON*

- Designed and led Groq's quote-to-cash process end to end for a flagship enterprise channel partnership.
- Built custom pricing models and wrote RFQ responses that helped close enterprise deals.
- Managed Lago billing, order forms, vendor agreements, and compliance documentation for enterprise accounts.
- Built revenue dashboards and geographic tax reporting for Sales and Finance; enriched 5,000+ CRM accounts in Clay.
- Helped scale and enable the sales team from 5 to 30+, supporting onboarding and sales readiness as the org grew.
- Won Groq's company-wide intern hackathon with a multimodal accessibility app built on Groq's models.

### Untether AI *(acq. by AMD)*
Sep 2024 – Mar 2025

**Sales Development Representative** *Toronto, ON*

- Rehired to sell the speedAI240 I helped launch, securing clients in automotive, robotics, agtech, and aerospace.
- Ran customer meetings proposing tailored solutions, and translated feedback into engineering tickets for the roadmap.

### Untether AI *(acq. by AMD)*
Jan 2024 – Apr 2024

**Product Management Intern** *Toronto, ON*

- Helped pivot the company from edge AI to datacenter LLMs and launch the record-breaking speedAI240 chip.
- Used Google Analytics and UTMs to drive marketing strategy that doubled web traffic and increased leads 2.7x.
- Ran competitive analysis to inform product positioning and wrote customer-facing value proposition materials.

### Ansys *(acq. by Synopsys)*
May 2023 – Aug 2023

**Business Development Intern** *Waterloo, ON*

- Built my foundation in enterprise sales, from prospecting to pipeline development.
- Used Salesforce and Sales Navigator for prospect analysis, increasing quarterly lead qualification rate by 20%.
- Organized customer engagement events contributing over $1M to the opportunity pipeline.

## Education
